CAPABILITIES

NEEWER™

look like you belong™

We're big believers that great visuals are a little more than just aesthetically pleasing; they play a pivotal role in helping brands, entities, and individuals align with the spaces they aspire to thrive in. We exist to bring this belief to life. Our core thinking revolves around the power of visual embodiment. We understand that a well-crafted brand identity, a compelling film, or thoughtfully designed campaign can serve as the gateway to an authentic connection and lasting impact. It's about more than just standing out; it's about belonging – truly resonating with your audience and leaving an impression.

Through our expertise in brand design, film production, and value-made visuals, we empower our clients to embrace their uniqueness and confidently claim their space in the world. We are passionate about exploring new creative mediums, collaboratively working with forces old and new, and breathing life into every project we undertake. We work closely with our clients, delving deep into their vision, values, and aspirations, and ensuring our commitment to excellence shines through every design, every frame, and every visual element we touch.

Our purpose is to celebrate the art of belonging, where we embrace the power of visuals to ignite connections, and where we make your journey to visual embodiment an attainable reality and create an enduring legacy that leaves a mark on the world. It's not enough to just know your space. Lead, pioneer, and overall, look like you belong.

how we work.

01. globally connected

We work with corporate clients all around the world. If there's anything we've learnt recently; we're more globally connected than we thought. Through calls and file transfers we can deliver on a range of projects - work on decks, brochures, edit video and construct infographics.

02. agile ways of working

Contracting at a daily/monthly rate is a pretty popular way to keep the brand heart beating. We can also scope out short term contracts with projected hours or simply charge by entire project as whole.

03. our tool box

In order to work effectively we can adapt and evolve our workflow to suit the task. We're proficient in the industry standard suits like Adobe, Final Cut Pro and Google, Apple & Microsoft office productivity tools. We can also converse via Slack, Google Meet, Zoom, Teams or just about anything else!

- ✘ Our approach to impactful infographics involves understanding the intended use and then re framing data to not only inform, but also enhance the client's brand and exceed their expectations.
- ✘ Infographics can be used in slide ware, white-papers, mailers or or used to aid an awareness campaign or internally communicate strategy and future roadmaps.

modes of engagement

ways of working

We traverse a multitude of industries, from cutting-edge technology and SaaS to renewable energy, fashion, and manufacturing. Our creative expertise extends its reach into the realms of aviation, aerospace, simulation, and artificial intelligence. We also proudly serve the finance sector, applying our innovative approach to shape compelling brand identities, tell captivating stories, and craft value-driven visuals that resonate across diverse domains.

A

pay-per-project

When working on larger campaign briefs or long term projects with more people and moving parts, it's more cost effective for everyone when we can place a cost to a set out brief and establish the output. We'd iron out a response, scope and approach and cost each project individually.

B

ad-hoc support

We'd set out a clusters of days per month, and enter into a scope with rough deliverables. Then, be on-hand to cater ad hoc requests with open communication and projection on what kind of rate a request might need. We keep a timesheet of task/days and invoice monthly.

C

subscription BETA

The visual space is becoming more fluid and brands are finding that they need more consistency and discipline within the way they live on through their collateral. Subscription models would allow brands to set out a flat monthly budget, reserving dedicated design time to churn out larger and more organised bulks of creative.

LEGACY

We firmly believe that great branding is an investment in the legacy of a business. Our brand identity design costs reflect the dedication, creativity, and meticulous craftsmanship we pour into each project. We understand the profound impact a well-crafted brand can have on a business or service. It is more than just a logo; it is the embodiment of a brand's mission, vision, and purpose. Crafting an effective brand identity takes discipline and a deep understanding of our clients' aspirations. We take pride in our ability to accurately represent their essence, leaving a lasting impression that resonates with their target audience. With each design, we build legacies that stand the test of time and propel our clients toward success.

TIME

We understand the urgency that some businesses may face, and we are always willing to accommodate tight schedules when necessary. However, it's crucial to emphasize that our pricing is not solely based on time constraints but on the intrinsic value we bring to each design project. While faster turnarounds may result in additional costs to accommodate the extra efforts and resources required, rest assured that the output will never compromise on quality. Our dedication to creating impactful and timeless brand identities remains at the forefront of every project.
